VOLUME 38

Friday, February 8th, 1946

Number 39

Snaps and Scraps

Faith is the substance of things hoped for, the evidence of things not seen.

The best renters in the fiction books for the year ending 1945.

The Black Rose, Thomas Costain

Cass Timberlane, Sinclair Lewis

Forever Amber, Kathleen Winsor

The White Tower, James Ramsey

This Peacock Sheds His Tail, Alice Tisdale Hobart

Captain From Castile, Samuel Shellabarger

The Gauntlet, James Street

So Well Remembered, Jas. Hilton

Daisy Kenyon, Elizabeth Janeway

The Manatee, Nancy Bruff

The Yellow Room, Mary Roberts Rinehart

The River Road, Francis Parkinson

Keys

The Marriage of Josephine, Majorie Coryn

When King George 3rd of England first heard the "Hallelujah Chorus," from the Messiah, by Handel he sprang to his feet as also did the audience. From that day to this it is proper for the audience to stand at singing of this chorus as a tribute to this great man Handel, a tribute given to no other composer.

This week's new books are:

Laura Lee Hope:

The Bobsey Twins on an Airplane

The Bobsey Twins at the Seashore

The Bobsey Twins in the Country

The Bobsey Twins at Snow Lake

Moral Teachings in the New Testament, by Milton Bennion.

Game Laws, by Arthur C. Bartlett

Buffalo Coat by Carol Brent

The Lipn King by Zop'a Kossak

The Clue in the Crumbling Wall by Carolyn Keene

Of Men and Mice by Deems Taylor

Handbook of the Restoration Compiled by the Zien Printing Company

General Jim by Arthur C. Bartlett

Audubon's America Edited by Donald Chloss Peattie

Bobsey Twins at School by Hope

Portrait of a Marriage by Pearl Buck

A Gallery of Children by A. A. Milne

What Do We Eat Now? by Helen Robertson, Sarah MacLeod Francis Preston.

Eat What You Want by Bauer

The Egg and I by B. MacDonald

Steven Leacock has "Canadians have to spend so much time convincing Americans that they are not British, and British that they are not Americans that they have precious little time to become Canadians"

The Golden Touch

1 What would you do if the sunset glory

Turned to real gold like the old, old story

2 And all the Buttercups stiffened in mould,

Changed from the fairy to Midas gold,

3 What would you do if dew from heaven

In sparkling diamonds to you were given?

4 If the deaf spider whose work

now graces?
Bloom of the grass, had woven rare laces?

5 This net so had a world as the world goes,
Would it be better were poetry prose?

Florence Randal Livesay

Florence Randal Livesay, writer of Canadian verse for Canadian boys and girls. For several years as Miss Randal she worked as a journalist on the Evening Journal at Ottawa, The Telegram, Winnipeg, also the Manitoba Free Press.

She was married to Mr. Livesay, general manager of the Canadian press and author in his own right. He later served overseas as Canadian correspondent.

Mrs. Livesay's daughter is also a poet of talent.

Mrs. LaRosa Kirkham entertained a few friends in honor of Mrs. Frank Leavitt on her birthday. The evening was spent playing cards.

FLORENCE ANNE BARRATT PASSES

Athenaeum Club Meet

The Athenaeum held their regular meeting Feb. 3 at the Library.

Club business was taken care of by club president Della Woolf.

The lesson on Foods and nutrition then proceeded.

From club funds we purchased three books and presented them to the library. The books were: "Eat What You Want" Food from market to table and "What Do We Eat Now?"

Assignments for next month's study on "Laws in Canada as Pertaining to Women" were given. Meeting adjourned.

Florence Anne Barratt, age 75, passed away Tuesday night at the local hospital.

Born in 1870 in Leicester, Leicester, England, she came to Canada in 1907, settling at Raymond.

Her husband, Walter, passed away 35 years ago, the victim of an accident while employed at the old Knigh Sugar factory.

A well known and beloved figure in this community, her passing is felt as a distinct loss.

She leaves to mourn her passing, three children, Wally, at present residing at Vancouver; Alice, (Mrs. F. Shaw), and Elsie, both residing at Raymond.

The sympathy of the community is extended to the family in their hour of sorrow.

Funeral services will be held Sunday in the First Ward Chapel.

NEWS NOTES

Mrs. Fontella Hawkins entertained a few friends at supper and a social evening on Monday night. Supper was served to sixteen.

Louis Schummers is home again after spending a few days in Calgary.

T. Geo. Wood, Frank Taylor, C. R. Wing, Gerald Snow and other Sugar Co. Officials from Raymond and Picture Butte are leaving soon for Denver, Colorado to attend a Sugar Beet Convention.

Mrs. Manilla Meldrum, Mrs. Wes McMullin and Mrs. Fred Ralph gave a shower for Mrs. Harold Jamieson at the 1st Ward Church last Thursday night. A nice program was arranged and a lunch served. The Jamieson sisters helped the bride open her gifts. She received many lovely things.

Jerry Witbeck was just home on two weeks' embarkation leave and left Sunday morning to take the prisoners of war back to Germany.

Mr. and Mrs. Eph. Gough left on Monday by TCA for Salt Lake City.

Mrs. Georgina O'Brien is home after spending a month in Picture Butte with her son Dick.

Last Wednesday January 30th the Literary Club convened at the home of Emma Dahl. Dot Witbeck and Emma were hostesses. Mae Tolstrup reviewed the "Black Rose" and a lovely lunch was served.

Mrs. Hugh S. Gledits entertained a few ladies at her home on Friday afternoon.

Do not miss "Diamond Horseshoe" in beautiful color. Saturday, 7 pm.

Mrs. Will Stone entertained about twenty friends at a chicken supper in honor of her husband, Will, who is leaving Feb. 25th on a long term mission. The evening was spent playing Rook with high honors going to Myron Holmes and low to Paul Redd.

C. B. Smith and daughter Vanda left Monday for California.

Thursday January 31st the 1st Ward Church the Relief Society held a party for the ladies and their partners. About two hundred attended. A very nice program was given and a delicious lunch served.

It is not so important which man control industry as which ideas control the man.

Loose the sense of right and wrong and we lose all sense.

A man can make money but Money can't make the man.

There is no "I" in it if you really know how to spell "DEMOCRACY"

Lions Meeting

Another interesting Lions meeting was held in the Sugar Bowl Monday February 4th with Pres K. Wilde in the Chair.

38 members and 2 visitors being present.

"Oh Canada" as sung followed by invocation by Lion M. T. King.

Pt. Garner and Cpl. Meldrum of the KWAC Band were introduced to the members by Lion J. Stone.

Lion Rulon Dahl gave a very interesting talk on "What is expected of a Lions Club?"

Cpl. Meldrum gave a few interesting remarks on her experiences during her tour in England and the Continent. This was followed by some highlights on some of the customs of the people of Holland and places on the Continent by Pte. Garner, who had a good number of photos which were passed among the members. The Lions roar was given these two ladies in appreciation of their talks.

Jimmy Ross was introduced as a new member.

Thursday February 28th was set aside as The Raymond Charter night with the following committee in charge:

L. L. Harker, Muriel R. Harker, Geo. Davey and Bush Sabey.

Geo. Ralph spoke to the members on his visit to the States. Geo. thinks they do it the hard way down there.

Lion M. T. King read a report on the Carnival which was favorably received, he asking the members to organize so to give greater individual support in the next Carnival.

The meeting closed by singing "The King".

Police News

Alvin Jones was fined \$1 and 45¢ costs for allowing a person to drive his motor vehicle without holding a subsisting drivers license.

Police are investigating a complaint of money being stolen from the Opera House.

A number of persons have been prosecuted for failing to park on the east side of Broadway at a 45° corner angle.

Constable Pittaway spoke to the 2nd Ward Relief Society on Juvenile Delinquency.

The strongest bridge to other people can be built with "common" from your own eye.

We stand on the threshold of a new age. But will it be God's idea of a new age or an age of some other kind?

SPORT SHOTS

By C.L.M.

JACKS 38 MAPLE LEAFS 35

The Jacks started off a desperate rally by an inspired Cardston five, equipped with spurs and all the accessories, to win by a narrow three points.

The Maple Leafs played hard for what would have been the upset of the year, and but for "lady luck" the Jacks would be weeping and wailing on each others shoulders.

Raymond—Turner, 9; Stone, Mitchell, 7; Mickelson 6; Rolfsen, Bourne 4; West 10; Hicken; Naider 2, Total 38.

Maple—P. Schow, 9; Carlweil, 7; Spencer 2; Cheesman 10; Sloan 4; Rolfsen 10; Hicken 10; Naider 1; Olsen 1, Total 35.

Officials: L. Wilson and D. Rolfsen.

OVET AND OVER AND OVER AGAIN

Raymond's fast-breaking attack played their favorite role time to time and Magrath Majors wound up on the tall end of a 52-35 score in an intermediate league game last week.

Wheeler was the big gun in Raymond's triumph with ten field goals and 22 free ones for a total of 22 points, while R. Miller scored 16 to lead for Magrath.

Raymond: R. Walker 7; Wheeler 22; West 2; Smith; Evans 4; H. Walker 6; Meldrum 5; R. Erickson 6. Total 52.

Magrath—Tanner 1; R. Miller 16; M. Miller 4; Greene; K. Harker 1;

D. Harker 1; Leishman 4; Briggs 6;

Coleman 2; Total 35.

RETURN OF CAPT. EDBERG AND AL BUKVICK

JACKS VS. LIONS

The next few days will be warmed up for basketball fans by two of the hottest ball games since James A. Nelsmith invented the game at Springfield Mass in 1891.

Saturday February 9th will find the Jacks pitted against a starry aggregation from Great Falls 2 especially gifted glants are the foundation of the Great Falls team and both are well known by ball fans, hero Al Bukvick, 6 feet 3 in. All American from Stanford University and Capt. Edberg, 6 ft 4 in from the ground up, a pre-war Pro. from the University of South Dakota. These two gentlemen were the spearhead of the Great Falls Army team which defeated the Jacks, here last month. The flashy Army Quintette has been scratched, since most of its members have been posted to civvy street or elsewhere and Bukvick and Edberg have pooled their power with another Great Falls five.

The stage is set for one of Alberta basketball's biggest shows. The undefeated Raymond Union Jacks vs. Magrath Lions. Since the league was launched years ago, this event has enjoyed a steady growth to become the League's outstanding basketball event of the year.

Magrath star-studded list includes the team of Lt. Max Schrey; Rice and Alsen who are dangerous on any kind of a shot once they have advanced past the centre of the floor.

Hamilton, a "pot shooter" known by all, Bourne, Harnel, Barker, Blair and Dick Sabey who can give a good account of themselves in any ball game. A daring type of basketball professor Dean Bennett figures his best defense is a speeded up and sharp shooting offense.

This assures a fire wach pace from start to finish, tailor-made for such speedsters as Bourne, Stone, West and Mitchell.

Reserved seats for both these head lines will be on sale at "The office."

Wedding Bells

Last Saturday afternoon at 4:30 the home of Mr. and Mrs. M. H. Gbb, Magrath was the scene of a wedding when Bishop Spencer united Wayne Gough and June Gbb in marriage. Just the immediate family and closest friends attended the ceremony. Mary Gbb was bridesmaid and Capt. Rolfsen was best man. After the wedding a calling reception was held with about 150 guests. The young couple left for Calgary via Trans-Canada Airlines for their honeymoon. The bride was beautiful in white and the groom looked handsome. They will make their home in Raymond.

On Wednesday, February 6th, at the Andrew Walton home, Zedda, only daughter of Mrs. Emily Lee, and J. Owen, (Bud) son of Mr. and Mrs. J. D. Brown were united in marriage. Friends and relatives numbering forty were present. The ceremony was performed by Bishop Hicken.

Take an interest in the community

HARMONY HARBURG

To vocal stars meet in Harmony radio, and JOHN NEWMAN, baritone, who casually auditioned for one of CBC Trans Canada network stations on Sunday at 7:15 a.m. They are DORIS DUNLOP, contralto, of concert hall and broadcast from Halifax.

Peacetime Saving

IN A MESSAGE ISSUED at the close of 1945 by Hon. J. L. Hsley, Minister of Finance, it was stated that serious consideration is now being given to the setting up of some organized plan for peacetime saving. This plan would resemble the Victory Loan campaign or the War Savings Certificate drives which have been carried out during the past six years, for the purpose of financing the war. The people of Canada have invested heavily in both victory bonds and war savings stamps, and a large percentage of the money raised, came from small investors who would not likely have put their savings into government bonds in time of peace. Much of the money also came from investors who were encouraged to undertake systematic saving through the pay roll deductions plan used for the Victory Loans.

Advantages Of Planned Saving

Each of the nine Victory Loan drives held since 1939 were heavily over-subscribed. In his year-end statement, Mr. Hsley revealed that a total of \$13,301,000,000 had been invested by Canadians in war loans, victory bonds, and war savings stamps and certificates, and that of this amount, \$6,596,000,000 had come from individual investors. This great plan of national savings has had many advantages for the people as well as for the government. It has made available funds urgently needed for carrying on the war; it has provided people of all income groups with an opportunity for making sound investments; and in the opinion of the Finance Minister, it has played a very important part in keeping down inflation, always a serious threat in times such as these in which we are now living.

An Investment In The Future

It has often been said that to invest in a government bond is to invest in the future of Canada. During the war, the people showed that they were eager to invest in the security of the nation and to develop the many potentialities of the country. Now that the war is over, the people are beginning to look to the future, and there are indications that they are as willing to invest their savings in the well-being of Canada in time of peace as they were to ensure its security during the war.

How You Can Get Quick Relief From Sore, Painful Piles

Most people seem to think the only way to get relief from their sore, painful piles is by local treatment. Local treatment may give temporary relief from the itching but you can easily see why such treatment will not correct the cause of your piles.

No lasting freedom from pile misery can be had unless the cause of the trouble is corrected. Piles are due to internal causes and the best way to get lasting relief is to treat them internally with a medicine like Hem-Roid.

Hem-Roid is a formula that has been used for over 40 years by thousands of pile sufferers. It is a small, highly concentrated tablet, easy and pleasant to use. This cleverly compounded tablet formula directs its medical action to relief of the congestion that is the real cause of your piles. Hem-Roid promotes free, easy and comfortable bowel movements, quickly relieves itching, irritation and soreness and stimulates better blood circulation in the lower bowel. With good blood

Posed by a Professional Model

circulation in the lower bowel the painful pile tumors soon heal over leaving the sensitive rectal membranes clean and healthy. We invite you to try Hem-Roid and let it prove itself. You can make your trial, in the privacy of your own home. NO COST if you are not convinced that this is an amazingly easy and surprisingly effective method of treating your sore, painful piles.

Get a package of Hem-Roid today from any drug store and use it as directed for JUST FIVE DAYS. At the end of that time if you are not absolutely sure Hem-Roid is the most, cleanest and most effective pile treatment you ever tried, return the unused portion of the package to your drug store and he will promptly refund your money.

NOTE: This generous offer is backed by a reliable firm doing business in Canada for a good many years. Hem-Roid must help your pile condition quickly, easily and pleasantly or this simple, easy test costs you nothing. Try it today.

Medical Degree

A Former R.C.M.P. Corporal Of Southern Saskatchewan, Studies In England

Richard Clitherow, 43, former Royal Canadian Mounted Police corporal in Southern Saskatchewan who started his medical studies when he was 38, has passed his final examinations in London, and returns to the House of Commons as a doctor. He is a labor member of parliament for Edgely, Liverpool. He is a pharmacist and says he studied for his medical degree simply because "I wanted to have an intelligent understanding of what doctors think." He will not practise.

He intends to visit Canada again for "that country got in my blood."

Makes Good Food

Sunflower Seed Can Be Used In Very Many Ways

The sunflower, though we think of it as something tall, lissom and being over the garden wall—purely decorative—is the source of food for both man and beast.

Sunflower seed has been planted for years in Russia, several South American countries, and Canada as a farm crop. Sunflower seed oil is a source of fat and protein.

Sunflower seed meal makes tasty flour with which to enrich bread. It is also used in the manufacture of shortening and in making soap, and it makes fine salad and cooking oil. As cake meal it provides fattening for livestock, much the same as soybean, cottonseed and linseed meal.

NEED SPECIAL CARE

Here's a word of caution on the washing of wool socks. They require the same tender care as sweaters—lukewarm water for both washing and rinsing, and no wringing or artificial heat. It's wise to trace an outline on paper for size before washing, and pin the sock over this on a towel placed flat for drying. When they are comparatively dry on top, turn them over; later place on the rod of a coat hanger and let circulating air complete the drying process.

Price Control And Rationing Information

Q.—May I serve unrationed meat at my lunch counter on meatless days?

A.—Thursdays and Fridays are definitely meatless days and no meat may be served on those two days, regardless if the meat is rationed or not.

Q.—I am a farmer's wife and would like to know if I must collect coupons when I sell my neighbor meat and poultry?

A.—Because poultry is not rationed it is not necessary for you to collect ration coupons for this sale. However meat coupons must be collected at the rate of one coupon for every four pounds of meat.

Q.—What will we use for sugar ration coupons when the present ones are all declared valid?

A.—The Green "S" coupons in ration book 5 are to be used for the purchase of sugar and preserves. The first "S" coupon becomes valid in February.

Q.—When will the new ration book be issued?

A.—Your present ration book will be used for some time yet. There are a number of sheets of coupons which have not yet been used and they will be, when and if necessary.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper, to the nearest Wartime Prices and Trade Board office in your province.

Magic Eye

Vessel Guided By Radar Steamed Blind Up The Thames

The 3,000-ton H.M.S. Pollux steamed "blind" up the foggy Thames estuary, guided only by the "magic eye" of its radar equipment.

The experimental radar ship, a former Russian ice-breaker, manoeuvred its way past shipping and between buoys in its path, solely on directions telephoned to the captain on the bridge by the navigating officer in charge of radar apparatus in a darkened cabin below decks.

"On the circular screen of a grey metal box three feet tall, the navigator could see almost as in an aerial photograph the coastline and every obstruction in the river for a radius of nearly three miles.

TAILORED TO SUIT

Modern Digest says it's no news that under-sized leading men in movies do a number of things to add illusory height. However, it's not generally known that one Hollywood executive, who is on the short side, has his office and home surroundings tailored to his proportions. His office has low ceilings, doorways, mantelpieces, tables, chairs and bookshelves. He even has hired a short secretary.

Greater Than Before

Canada To Spend \$500,000,000 On War Veterans This Year

A grateful Canada in 1946 alone expects to spend more than \$500,000,000 on its war veterans, an amount greater than the ordinary running costs of the federal government itself outside of war expenditures.

Never before in its history has Canada contemplated such a colossal expenditure in a single year on war veterans. To be handled through the Department of Veterans Affairs, it will include gratuities, re-establishment credits, unemployment benefits, medical services, vocational training, university training, housing, settlement on small holdings or farms, and purchase of equipment.

After the war, 1919 was the peak expense for veterans, and about \$300,000,000 was used up.

Although Canada's post-discharge benefits for its servicemen are already the envy of every other nation, they are still not complete.

When the first parliamentary session of 1946 begins, the hard-working Veterans Affairs committee will be reconstituted and carry on the work it began last autumn. Still to be threshed out by this all-party group of ex-servicemen, who in committee have tossed personal politics to the winds in favor of getting the best for the fighting men, are five main subjects:

The Canadian Pension Act; the War Veterans' Allowance Act, which provides for living allowances for aged or incapacitated veterans; the medical treatment regulations; Civil Service preference; other groups, not actually servicemen, for instance, merchant seamen, fire fighters, auxiliary services, V.A.D., Red Cross, civilian pilots.—Ottawa Citizen.

STATUE OF BUDDHA

Nara's great bronze statue of Buddha—largest in the world—is waiting to be "demilitarized". United States troops discovered the Japanese had stored 100 cases of military supplies near the 53½-foot idol, which attracted thousands of pre-war tourists to this city, Japan's first capital.

Contact With Moon

Orson Welles Comments On Possibilities Of The Future

The universe, said Orson Welles, is getting awfully small, and very wonderful.

Call scientists dreamers if you will. Believe nothing can keep the world from going to pieces. But Welles believes the Army's contact with the moon may solve the housing shortage and the problem of how to keep junior from getting underfoot.

Welles, who seven years ago gave a large portion of the population a case of hysteria with his "Invasion from Mars" radio fantasy, was impressed with the news of the Army's radar achievements.

"And I was the fool who thought my broadcast was hokum," he said.

So ends an era. Welles commented that the time was gone when all a mother had to do was worry about what devilry Johnny was up to in the backyard. Now she must worry about his catching a cold romping around in inter-planetary space without his rubbers.

"I think the day will come when children will play in space, as they do in backyards," Welles said.

"There'll be no need to fear Mars or the moon," he said. "Instead of Mars attacking us, it will be a real estate subdivision."

The Army Signal Corps' forecast of space ships flying thousands of miles through the ionosphere made Mars a much more pleasant place to think about on dark nights, he said.

"We now realize the possibility of inter-planetary excursions. I hope that they will be for scientific research and maybe for pleasure, eventually, and not for reasons of refuge."

Radar contact with a planet 238,857 miles away holds a "grinny humorous warning," he added.

"It should tell us that the way we're handling the affairs of the world, we may find someday that the only way to continue life will be by fleeing to another planet," Welles said.

Part Of Heritage

Indians Respect Witch Doctor But No Longer Believe In Him

Pickings are slim for a witch doctor among Six Nations Indians these days at Brantford, Ont., and De-Wa-Se-La-Ke, or Two-Axe, one of the last of the medicine men, attributes the slump in business to shortage of money, not lack of respect for tradition.

Most of the Indians no longer believe in the healing powers of the witch doctor, but by those who do, a false face, a tortoise-shell rattle and a few dried herbs are considered as effective against an illness or infirmity as penicillin, a sulfa drug or a shot of adrenalin.

The masks Two-Axe wears, the songs he sings and the rattle he uses are sacred things, even today, to most Indians. Whether or not they believe in them, they respect them because, as one Indian on the reservation put it, they are part of a heritage.

Two-Axe can brew a mixture of herbs medicinally good for a human body. He can dry a root to cure a stomach-ache or headache, or help a fever or a rheumatic pain. He says some of the things he knows about roots and herbs are the basis for patent medicines the white man has been making for years.

A bride in Morocco sits motionless, eyes and mouth closed for five days after the big event, while women passing by come in to look at her.

Target Selected

U.S. Will Test Atomic Bomb On Armada Of Ships

The United States Navy has raised the curtain on its plans for testing the atomic bomb against a great armada of fighting ships—an experiment expected to revolutionize sea warfare.

A guinea pig fleet of 97 vessels, ranging from carriers and battleships, submarines and transports to an assortment of smaller craft, will be the atomic target in the vast operation to start in May.

GEMS OF THOUGHT

LOVE ONE ANOTHER

Love is never lost. If not reciprocated it will flow back and soften and purify the heart.—Washington Irving.

"Faith, like light, should always be simple and unbending; while love, like warmth, should beam forth on every side, and bend to every necessity of our brethren."—Martin Luther.

It is the very essence of love, of nobleness, of greatness, to be willing to suffer for the good of others.—Spencer.

"Love one another, as I have loved you." No estrangement, no emulation, no deceit, enters into the heart that loves as Jesus loved. It is a false sense of love that, like the summer brook, soon gets dry.—Mary Baker Eddy.

Divine love is a sacred flower, which in its early bud is happiness, and in its full bloom is heaven.—Eleanor L. Hervey.

How shall I do to love? Believe. How shall I do to believe? Love.—Leighton.

Proposed Gasoline Price Jump Rapped

Strong protests which the Alperco Motor Association has made to the Dominion authorities against any increase in gasoline prices have by other organizations in the province and also some leading newspapers.

The Alberta Farmers Union has expressed its objection to the proposed raise in gasoline prices. At once it has asked the federal government to probe the wholeness of the Trouth Investigating a fact finding board to make a thorough investigation. It is making a similar request to the provincial government.

Other organizations in the province also are preparing to lodge their protests against any raise in gasoline prices and it has been indicated that the matter will be brought up at the session of the Alberta Legislature opening on February 14.

The Manitoba government also has expressed its opposition to the proposed increase and is making a further survey of all factors in the situation.

Last week Leroy Andersen sent a clipping home to his parents showing the testing of their new 57 mm and recoilless cannons. Leroy is instructor in Rocket Weapons Team and he is attached to the 20th Armored Division at Camp Cook California. In this particular clipping Leroy was the range finder. It was very interesting.

WEEKLY LETTER

This is the time of the year when stock take - the order of the day. Even at the experimental station we have to stop down and analyse the results of the work that has been done during the past 12 months. Sometimes quite interesting information comes out of such a study. In this letter we will deal briefly with some features of

The herd never has more than 17 cows working at any one time because that is the limit of accommodation available. The cows are maintained on the basis of twice a day milking and home-made groen feeds. At the end of the year there were 14 females in the herd with one or more completed lactations. Two old cows with 8 lactations each had produced a total of 116,201 pounds and 124,633 pounds of milk respectively. Another cow with 6 lactations had a total production of 93,535 pounds and from there on it ranged down to 11,423 pounds for the poorest animal with only one lactation. That raises the question that a cow that can reach the ripe age of ten years and produce well over 100,000 pounds of milk under good average conditions is a very valuable type of cow to have in a herd. In fact, there are relatively few of this type in existence.

Another way of measuring a herd

is through Record of Performance tests. In 1945 all cow wars ended and all the completed records were filed. The poorest cow had to meet 90 per cent of required production of milk and 102.9 per cent of the requirement of fat. The best cow produced 109 per cent of required production of milk and for fat over 100 per cent. The average had 168.4 per cent of the required standard. This means that the average management, even in the

Cost of milk production is of interest. At the present time it is an accurate indication of all the feed required during the dry period and the actual milking period in the cow's life. During 1945 the average cost for producing 100 pounds of milk was 74 cents and the average cost for each pound of milk produced was 20 cents. This is based on current value of milk used and was slightly higher than in this previous year. To reduce the feed cost of the milking herd stress and disease of calves and young stock is of great concern. It is evident then that the cow must become an important factor in the cost of milk production. There is any cow that is not producing a liberal amount of milk cannot be expected to pay for feed and other costs. To meet the demand for milk produced by a cow that is not producing per 100 pounds.

Would be accepted gratefully

WORLD HAPPENINGS
BRIEFLY TOLD

Field Marshal Alexander will have British aides when he assumes his post as governor-general of Canada.

Col. T. W. Purdy, clerk to the Aylsham, Norfolk, magistrates, was fined £3 (\$13.50) in his own court for not setting the handbrake of his car.

The Associated Press is making direct distribution of world news to newspapers in Turkey. It is the first time an outside news service has done so.

There are 106 trade unions in Nigeria according to the latest registration. The membership of the individual unions varies from 10 to nearly 3,000.

The United States, under its new liberalized occupation policy, may send up to 1,000,000 bales of cotton to Japan. General MacArthur has approved the program.

The first newspaper to be printed daily in Canada was the Montreal Daily Advertiser in 1833. Today, 90 daily newspapers from coast to coast keep Canadians informed.

The Arethusa training ship is now back at her berth in the Medway, near Chatham, England, and it is hoped she will soon have her full complement of 240 boys training for the Royal Navy.

All restrictions have been removed on areas formerly used as practice bombing ranges by R.C.A.F. training schools in Manitoba, Saskatchewan and Alberta. The areas are declared safe for public use.

The destruction and scuttling of 110 U-boats taken from Germany have been concluded by the British Navy. Only 30 underwater craft from Germany's once numerous wolf packs still are in existence.

Depends On Currents

What Bottles Can Do In Ocean Travel Is Remarkable

It is a pity there can be no record of the voyaging of a bottle thrown into the sea off South Australia 28 years ago and containing a letter which has just been delivered to its addressee at Aylesbury. What bottles can do in the way of ocean travel is remarkable, and not the least fascinating point is the great difference in various recorded instances of the rate of drift. In 1913 a bottle thrown into the sea at Studland Bay, Dorset, came ashore eleven months later at Christchurch, New Zealand, and another bottle put overboard off Cape Town in 1912 was found on the beach near Port Philip, Australia, only seven months later, while a third bottle took four and a half years to drift from South Africa to the Shetlands, and a fourth took thirty-two years to travel from Stewart's Island, New Zealand, to the coast of Australia.

Much, of course, depends on the currents the bottles happen to encounter. Captain Simpson who launched some 10,000 bottles on experimental voyages, found that 10 per cent. of them came to shore, though some of them travelled over 10,000 miles, and he reckoned that the average rate of drift was less than half a mile per hour.—Manchester Guardian.

Gay Stitchery

7301

by Alice Brooks

Ummm, good enough to eat! Embroider these fruit motifs in cross-stitch for a bright note of color on kitchen linens. Easy and fun to do. Let the children do this simple stitchery; they'll enjoy it. Pattern 7301 has a transfer of seven motifs averaging 4 1/2 x 8 1/2 inches; stitches.

To obtain this pattern send twenty cents in coins (stamps cannot be accepted) to Household Arts Department, Winnipeg Newsprint Union, 175 McDermot Avenue E., Winnipeg, Man. Be sure to write plainly your Name, Address and Pattern Number.

Snakes ordinarily use their venom apparatus as a defensive weapon only. 2658

Weekly Ration Fashion
for a single person

SUN.	MON.	TUES.	WED.	THU.	FRI.	SAT.

1/2 lb. 3 tokens	5 oz. 1 token		10 oz. 2 tokens			1/4 lb. 1 token

1 token left over.

A New Year's resolution made to be kept could beneficially be one for healthful eating. Too often the person living alone is content with a scrap. But around the weekly meat ration can be balanced attractive and appetite-tensing meals, and you'll be surprised at what little time and effort are actually required in their preparation.

To begin the week when a guest may be on hand for Sunday dinner, minute steaks are suggested. Rice, potatoes and creamed celery would be good accompaniments. On Monday a token's worth of sausage, a jacket-boiled potato and cooked-to-perfection cabbage make tasteful eating. A broiled fish steak, baked potato and parsley-buttered baked carrots will give you a meatless oven

meal for Tuesday. On Wednesday two shoulder lamb chops, along with unrationed kidney for added flavour and nutritional goodness, can form the basis of a luscious stew. Part of it can sit over a day in the ice box and make a tempting re-appearance on Thursday along with a tossed salad. Friday is an excellent day to get caught up with your dairy products consumption, and eggs florentine is a fine dish for this purpose. It is simply prepared by nesting soft scrambled eggs in a bed of freshly cooked spinach and topping the whole with a cheese sauce. A quick trick for Saturday would be a beef-burger with tomato sauce and your favored vegetables. The week's ration spending leaves you with that comfortable feeling of having one token to the good.

Idea Of Englishman

Man Who Introduced Daylight Saving Died Before It Was Tried

The British Kent County Journal has an interesting article on Sir William Willett. Though born at Farnham in Surrey in 1856, Willett lived most of his life at Chislehurst in Kent, and it was whilst riding early one morning on Chislehurst common, and noting how many bedroom blinds were down and people wasting beautiful hours of fresh sunshine, he conceived the idea of daylight saving. Willett, who was a builder by trade, was not an M.P., but he got his friend Robert Pearce to introduce the Daylight Saving Bill in Parliament in 1908. It took the First Great War, however, to persuade the politicians to pass it in 1916, by which time Willett had published nineteen editions of his "Waste of Daylight" pamphlet and had been dead just a year. He did not live to see his inspiration achieved, and certainly never envisaged such a possibility as Double Summer Time, the achievement of yet another Great War. He is buried in the churchyard of St. Nicholas at Chislehurst, and the National Trust has purchased some 88 acres of countryside near his home as a memorial to a true public benefactor. In this park stands a granite obelisk, commemorating him, with the inscription "Horus Non Numero Nisi Aestivas." On the estate is a Willett Way and a Daylight Inn with a unique sign showing the sun between two clock faces.

War Brides

Most Of Them Evidently Like Their New Country

One of the stories that is going the rounds in Canada in this age of rumors is that British war brides don't like Canada and want to go home. About 9,000 British girls came to Canada in the last three years after marrying our soldiers. Only 29 have applied for a return passage to Britain.

Most of the war brides evidently still love their husbands and like their new country. In fact, everybody is happy about the whole thing, and no wonder. Could there be any better husbands than Canadian soldiers? With all our troubles is there any country right now which offers a better chance for the happiness of a young family?—Vancouver Sun.

Cost Of War

Conflict Just Ended Cost Four Times That Of Previous War

Without taking into account property damage, loss of production, the cost of war relief and neutral losses, here is what the war cost the treasures of the world according to a report made public by the Bank of International Settlements recently—\$680,000,000,000. Thus the conflict which has just ended cost more than four times that of the 1914-1918 struggle. War among nations is becoming increasingly expensive—with the prospect that another war may be the sort most expensive of all, and the last.—Winnipeg Tribune.

The world's oldest book is said to be a tome in China. It consists of 78 wooden leaves, fixed together with string, and dates back to 100 B.C.

Antique Furniture

Post-War Britain Is Going Mad Over Art Treasures

Post-war Britain is "going mad over" antique furniture, paintings and ornaments, and a similar boom is predicted for the United States within two or three years.

At London's two largest art auction houses, Sotheby's and Christie's, spokesmen said that while there had been no fantastic prices for any one item, even "the most ordinary" art treasures bring two to five times their pre-war price.

"We've found that the market here is about two years ahead of the United States," Charles Des Graz, a partner at Sotheby's said, "and good healthy American buying is still taking place which means they anticipate a boom."

"I notice that the extraordinarily high prices are fetched by ordinary things rather than by extraordinary things," Des Graz added. "It's not that things bring \$8,000; but that things which used to fetch \$80 now bring \$400."

At Christie's, Sir Alec Martin, managing director, said that the general level of things of quality, "provided they are on the smallish side," was much higher than before the war but that there had been no real test of an outstanding article, such as a really great Gainsborough of a Rembrandt, since there have been none on the market.

He said people do not want "collectors' items" so much as things of some serviceable value which they can't buy new, such as English and foreign china, Georgian silver (rather than formerly popular Elizabethan), small furniture, pictures, carpets and curtains.

Chippendale tables, "just big enough for a glass and an ashtray" now bring \$400 to \$800 where a few years ago they brought \$60 to \$80; a writing table that formerly cost \$1,600 now costs \$5,200; a diamond bracelet worth \$90 before now is worth \$1,200; Audubon's book of birds, one of the copies of which brought the world's record price of \$9,600 in 1937, now averages \$14,800 for a "quite bad copy."

A Dresden china service is worth \$2,000 or twice its pre-war price; a small Florentine engraving will bring \$8,400; china and porcelain ornaments sell from \$120 to \$1,200, and a plain silver tea tray brings \$6,400.

Lost Treasure

Two Men Who Knew The Hiding Place Are Now Dead

Treasures from Oxford Museum of History and Science—including a clock face belonging to Cardinal Wolsey—are missing.

They are in a safe place. But the two men who knew the secret are dead.

The men were Dr. R. T. Gunther, curator, and Mr. Albert Joyce, the janitor. When the war began they hid ten astrolabes (brass navigating instruments used by sailors a thousand years ago), Cardinal Wolsey's clock face, and some ancient watches. Where they hid them no one else knows.

Dr. Gunther and Mr. Joyce died in 1940 and their secret went with them.—London Daily Mail.

LIFE'S LIKE THAT

By Fred Neher

"I'm beginning to like this doubling up on transportation."

REG'LAR FELLERS—Somebody's Awful Thick

DEF. HONORS F.D.R.—The U.S. mint is now making the Franklin D. Roosevelt dime to go into circulation soon. Face of the new coin carries the profile of the late president. On the other side is the torch of liberty with the olive branch of peace and the oak branch signifying strength.

Expensive Ceremony

Diamonds To Weigh Aga Khan Sent In Crash-Proof Boxes

Special "crash-proof" containers are being made in Britain to carry thousands of diamonds to India to weight the Aga Khan at the celebration of his diamond jubilee as spiritual head of the Ismaili Moslem sect.

Present weight of the Aga Khan is estimated at 238 pounds.

The diamonds, obtained from a diamond syndicate in London with the co-operation of the British and Indian Governments, will be brought to India under special escort. The celebration will take place at the Bradbourne Stadium, Bombay, before about 40,000 followers and guests. It will be repeated in Dar-es-Salaam, East Africa, in August for the benefit of the Aga Khan's followers in Africa. The Ismaili Moslem sect numbers about 20,000,000 followers in Asia, Africa and Europe.

Followers in India alone have collected more than \$1,500,000. About \$900,000 will be polished diamonds which will be bought as souvenirs by followers. The remainder will be returned to the syndicate after the African ceremony.

A special pair of giant scales with a throne on which the Aga Khan will sit is being constructed in India.

NOW YOU TELL ONE

When a pagehanger ripped off a piece of ceiling paper at a house in Olean, N.Y., a piece of plaster came with it—quickly followed by a stream of honey and a swarm of bees. Found between the ceiling and the attic floor was a honey comb eight feet long, 14 inches wide and eight inches deep. More than 125 pounds of honey was taken from the combs after hundreds of bees had been eliminated with a blowtorch.

THIS CURIOUS WORLD

By William Ferguson

BY GENE BYRNES

Scientists To Probe Secrets Of The Arctic

OTTAWA.—Scientists have started investigations aimed at disclosing the untold wealth in vast uninhabited northern wastes, eliminating the scratch and buzz of aurora borealis in radios, improving navigation and generally increasing man's knowledge.

First step taken by the newly-created Arctic Institute of North America—established through international co-operation by Canada, United States, Newfoundland and Denmark, but conducted as a private organization—has been the offer of two \$1,500 fellowships for Arctic scientific study.

This is a start in solving the secrets of the Arctic and building a storehouse of information on every aspect of that great silent area which can be used for both commercial and military purposes.

An official has declared, however, it is coincidence, rather than significance that one of the board of governors of the institute is Lt.-Col. J. T. Wilson, leader of the army Muskox operation which will trek through 3,200 miles of Canada's sub-Arctic.

"The military aspect of our work is only incidental and it might interest you to know that we hope to arrange a comprehensive exchange of information with other countries interested in Arctic research such as Russia, which already has made extensive studies in this area," he added.

The institute plans to leave practical work, such as establishment of weather and geological stations to government bureaus, but will work closely with international scientific expeditions and surveys that may be conducted extensively in the future.

No nationality restrictions have been placed on the fellowship which will permit study of a wide range of Arctic subjects from biology to meteorology.

Scientists hope the practical application of this program eventually will see the Arctic opened to year-round regular transport and co-incident development of mineral deposits. Study of the effect of the disruptive but colorful northern lights on radio communications may have far reaching effects on reducing noise and interference on regular commercial radio networks.

Investigations of magnetic conditions at the magnetic North Pole and a study of atmospheres likely will result in improving both polar and world navigation conditions and facilities.

CIVIL AVIATION

Would Train Veterans Who Have Flying Experience

WINNIPEG.—If the same "top training" were given to the many ex-servicemen seeking jobs in civil aviation as provided under the Commonwealth Air Training plan during the war, Canada would be kept in the foreground of world aviation, J. R. Morgan, Brandon-Virden Flying club, told delegates to the Royal Canadian Flying clubs convention here.

A gap exists between training in the air force and that required for bush flying, he said, and this gap has to be filled or paid for in lives.

Discussion at the opening session of the convention centred on ways of speeding the growth of civil aviation by easing regulations governing separation of pilot instructors into categories and the opening of schools by the department of veterans affairs for training veterans with flying experience.

The suggestion that schools be established was contained in a brief presented to the government by Mr. Morgan and approved by the delegates.

STORM OF PROTEST

Over Increased Cost Of Radio Licenses In Britain

LONDON.—A storm of protest gathered around the heads of Britain's Labor government over last week's announcement hiking the cost of listening to the British Broadcasting Company from 10 shillings (\$2.25) to a pound (\$4.50) a year.

As a dozen members of parliament demanded detailed reasons for the boost in the annual wireless license, Herbert Morrison, lord president of the council, explained:

"If we are to get the institution (BBC) to pay its way and if there is to be room for development, it cannot be done on 10 shillings a year."

FUR COAT STOLEN

HUDDERSFIELD, England.—A \$1,000 mink coat was stolen recently off a display stand in a shop in this Yorkshire town, while assistants were working.

HELP RED CROSS

OTTAWA.—Canada's 10,000 conscientious objectors, most of them working on farms, have built up a fund of \$2,222,802 for the Canadian Red Cross.

RECEPTION in Toronto, Ont., to himself and Mrs. Eisenhower was "overwhelming in kindness," Gen. Dwight Eisenhower remarked. Cap and gown replace the general's battle-dress as honorary doctor of laws degree is conferred at convocation at the University of Toronto.

Ceremony Is Held At Old Sub-Arctic Fort

CHURCHILL, Man.—In a sombre sub-Arctic setting modern and medieval methods of warfare stood in bizarre contrast as a fleet of snowmobiles carried a delegation representing seven foreign governments to Fort Prince of Wales, oldest stone fort in Western Canada.

Representing the latest technique in winter travel, the Canadian-developed snowmobiles drew to a halt before the massive structure which juts into Hudson Bay on a peninsula about nine miles from the Muskox base camp near here.

As the party of visiting military attaches conducted by Maj. H. P. Emond of Ottawa climbed out of the tank-like vehicles and entered the fort, a seven-man guard of honor under Sgt. Maj. Ed. McCarthy of Winnipeg, standing at attention on the embrasured 20-foot-high walls, presented arms.

It was believed the first time a guard has been mounted at the 213-year-old fort since Governor Samuel Hearne returned in 1783 after surrendering the star-shaped fortress the year before to a force of 400 Frenchmen under Jean Francois Galoup, Comte de la Pernelle, who landed his men in three sailing vessels.

When the visiting delegates from the governments of Belgium, Chile, France, Norway, Peru, Russia and the United States entered the fort, a 24-pounder cannon was fired by Robert Urquhart, Hudson's Bay Company factor in Churchill who came here from Aberdeen 25 years ago.

Urquhart said he "improvised" a shell for the antique cannon by stuffing powder in a two-inch pipe and plugging the ends with wood.

After the delegates inspected the ruins of the old fort, built from 1733 to 1771, they gathered in a circle around skeleton remains of brick walls within the citadel, partially destroyed by the French who captured the structure in 1782 without firing a shot.

Lt.-Col. P. D. Baird of Montreal, talking first in English and then in French, told the visiting delegation which included several officials from defence headquarters in Ottawa he hopes the fort "with its obsolete weapons will be a symbol for us—that we can now go forward together in friendship to the peaceful development of our countries."

It is one of the main purposes of Exercise Muskox to contribute toward the development of the huge empty northlands of Canada which stretch from here to the top of the world. Col. Baird then led the party in singing "God Save the King".

The guard of honor wore new Muskox flashes picturing an aeroplane, ship and tank to represent all branches of the service. The guard included Bdr. Vern Dempsey, Regina.

FISHERMEN WORRIED

DIGBY, N.S.—Scallop fishermen are concerned over the possibility their scallop drags might pick up dangerous explosives along the Bay of Fundy coast near here. Royal Canadian Mounted Police in a naval tug were attempting to gather up the explosives, believed to have come from a merchant vessel, and dump them in deep water.

Farming was pre-war Japan's biggest business and rice its principal crop.

ASK FOR INQUIRY

Australia Wants Investigation Of Malayan Campaign

SYDNEY, Australia.—Australian newspapers continued to keep before the eyes of the public recent demands for an inquiry into the ill-fated Malayan campaign of 1942, in which the Australian 8th division was decimated by the Japanese.

Although it is presumed an inquiry could only be undertaken by Britain, a constant stream of editorials and reports on the campaign are appearing in Sydney newspapers. There is little indication as yet, however, that the Australian government will request any investigation, although Prime Minister Chifley is known to have read the newspaper reports on the publication in the United States of the secret speech Winston Churchill, then prime minister, made to the House of Commons in 1942.

The speech, which analyzed the Malayan Campaign and the battle for Singapore unfavorably to Australian troops and British commanders, has aroused great interest here.

The latest editorial demand for an investigation was made by the Sydney Sun which said: "We in Australia are deeply concerned at discovering the truth. Not only because of the conflicting tales and rumors which have circulated around the world, but because one of our divisions—which was one of the best-trained units of the defence forces in the Malayan Peninsula—was lost in the surrender."

U.N.O. TASKS

Should Not Promise More Than Could Be Performed

LONDON.—State Secretary Paul Martin of Canada told the United Nations economic and social council: "It is essential that we should from the beginning keep a sense of proportion and not promise ourselves or others more than we are able to perform."

At the same time he stressed that there are few tasks confronting the United Nations of more vital importance than those to be undertaken by the council.

At the second meeting of the 18-power body on which Mr. Martin represents Canada he said primary responsibility for the pursuit of policies designed to accomplish the purposes of the council—promotion of higher standards of living, full employment and economic and social progress—rests for the time being on the national governments.

The Churchills

Still chipper, still smoking a cigar, Winston Churchill arrived in New York with his wife after a rough crossing. They are vacationing in Miami, Fla., for six weeks.

Output Of Lumber Will Be Increased

WINNIPEG.—D. D. Rosenberry of Ottawa, federal timber controller, told the annual convention of the Western Retail Lumbermen's Association here that indications were lumber production in Canada would reach a new high in 1946.

In addition, the estimated 400,000,000 to 500,000,000 feet used each year directly or indirectly for war purposes would be diverted to civilian use and less lumber would be exported than for years.

Despite this, he warned, shortage of many lumber items probably would continue because of the heavy demand.

It was necessary to retain lumber controls because otherwise a major portion of the Canadian output would go to export markets which were paying a higher price than obtainable in Canada.

At the same time the expert demand for Canadian lumber was extraordinarily high and lumber was one of Canada's major exports. Both the domestic consumer and the export market had to be protected and this could best be done by controls.

Delegates from Manitoba, Saskatchewan and Alberta attended the meeting.

Previously S. W. Stacey of Edmonton, president of the association, urged every effort should be made to remove hindrances and obstacles which stood in the way of lumbermen in western Canada.

R. G. Graham of Winnipeg, former commanding officer of A-15 infantry training centre at Shilo, Man., claimed the federal government had adopted an "unrealistic attitude" toward labor.

YALTA AGREEMENT

In Support Of Russia's Claim To The Kurile Islands

WASHINGTON.—State Secretary Eynes said that United States military chiefs were fully aware of a secret Yalta agreement for Anglo-American support of Russia's claim to the Japanese Kurile Islands.

Under the Roosevelt-Churchill-Stalin agreement, he said, the United States and Britain agreed to support Russia's claim to southern Sakhalin, big island north of Japan, as well as the Kurile chain, which the Japanese used as a springboard early in the war their assault on the Aleutians.

So secret was the document that Mr. Eynes acknowledged at his press conference that neither he nor President Truman knew of its existence until after Japan's collapse in August—nearly seven months after it was drafted.

But he emphasized that the initial secrecy was imposed for sound reasons, saying its disclosure would have provided a tip-off to Japan that Russia was planning to enter the Pacific war.

CHIMNEY SWEEP

Member Of A Noted British Family Goes Into Business

SLOUGH, England, G. A. Sutherland-Leveson-Gower, member of the noted British family which holds at least two peerages, has set himself up here as a chimney sweep.

He had published the following advertisement:

"All types of chimney swept. All orders promptly attended to. Usual charges. Support local enterprise. A postcard will bring him to your door or call on G. A. Sutherland-Leveson-Gower, Lake-Ave., Slough." A veteran of the Second Great War, the self-styled sweep is a kinsman of the Duke of Sutherland—incumbent of a peerage going back to 1833 and of the Earl of Glenville.

LOAN TALK

Britain Wants To Borrow Money From Canada

OTTAWA.—The British government likely will announce the names of officials who will come here for loan talks with Canadian government authorities, it was learned. Date for the opening of the talks will be made known at the same time.

There has been no indication of how much Britain wants to borrow from Canada, but speculation has ranged from \$500,000,000 to \$1,500,000,000.

BUILDING MATERIAL SHORTAGE

OTTAWA.—Reconstruction Minister Howe announced appointment of a special committee of the Canadian Construction Association to investigate the continuing shortage of construction materials. Headquarters of the committee will be at Ottawa.

STOLEN BUTTER

WINNIPEG.—A dairy truck containing 400 pounds of butter was stolen here while the driver was making a delivery. Police recovered the truck 15 minutes later but eight 50-pound boxes of butter valued at \$152 had been taken.

GOOD ROADS PAY DIVIDENDS

Good road and truck owners pay for
good roads whether they have them
or not.

The Provincial Government is con
stitutionally responsible for the kind
of roads we have in Alberta. It is
usually responsible also because it
collects the motor license fees, truck
and bus licenses and gasoline tax.

Let us all help the Provincial Gov
ernment to discharge its obligation
to us by giving them the necessary
funds to start now on the
10 year \$120,000,000 programme plan
ned by the Department of Public
Works Now is the time to start.

You can back the AMA's Campaign
for better roads by becoming a mem
ber. The annual fee is only \$10; a
year and gives you many valuable
benefits and services.

HERE and THERE

U N O PLAIN TALK

If you have been disturbed by a
plain and blunt talk between the
Azerbaijan to break any and for a
separate government. This of
course would be in direct opposi
tion to the pledge and spirit of
United Nations Charter. Visibly
retorts with the charge that Britain
is keeping troops in Greece and
India, Greece is a free country
why should any foreign troops
be there to keep order. The
Indonesians are determined to throw
off the Dutch yoke. Russians are
opposed to British interference in
the light of their pretensions of peace.

Just where the truth lies is very
hard to say but it is interesting
note this frank and straight
forward discussion. It is hard to
say where such plain talk is going
to do any harm. Instead of beating
around the bush in diplomatic sur
roundings differences can be
threw out in a frank and fearless
manner who will be the worse off
The world will be in a much better
position when they know the truth.

..... HITLERS INTUITION

To those critics who were al
ways crying "too little and too late"
it might be revealing to know that
the Axis people made blunders.

The Allied General staff are still
wondering why Germany failed to
invade Britain in 1940 up until the
fall of France the German war plans
had gone through on schedule. Why
did they stop here? No one thought
that the invasion would be a push
over but what could the hand full
of Canadian troops have done against
the Nazi hordes once they were in
England. Did Goering plan to knock
out the RAF first or was Hitler
embarrassed by the only collapse of
France?

Why did Hitler not occupy Spain
and seize Gibraltar. With Gibraltar
in German hands Malta would have
been useless. The British Fleet
would have been forced out of the
Mediterranean and the German
Campaign in North Africa been a
walk over. Today this appears a
major blunder.

Why did Germany attack Russia
in 1941? The peace pact of August

1939 should have told Germany
from the threat of a Russian attack
everyone has forgotten how nearly
successful the Nazis were. In the
end Russia proved to be the grave
yard of the German Army.

Why did not the Japanese attack
the Hawaiian Island after Pearl
Harbor? They must have known
how nearly they had wiped out the
US Pacific fleet. That they let the
opportunity was a colossal mistake.

Some day these questions may be
answered.

Governments in Business

A third item The Times Review
Port Eves, January 17, 1946

The case of Pan American Air Lin
es and the British Government is an
example which can be obtained
as to what is going to happen if the
government tendency continues for Gov
ernments to get into business in the in
ternational field.

When a provincial Government de
cides to operate a power plant no
one outside of that province is inter
ested except that as Professor McDo
nald pointed out in the senate com
mittee, the London Treasury loses
\$10 million to \$125 million a year by
businesses owned by governments
not paying Dominion tax.

When the Dominion Government
operates a railway that is something
which concerns only Canadians. If peo
ple of this country decide to spend
more money each year, to have a
railway system run by the Govern
ment then they would have to spend
if it were run by a private corpora
tion that is strictly the business of
the Canadian people.

On the other hand when a Govern
ment goes into the international field
there is going to be plenty of inter
national agreement between people in
other countries and the people in another.

Pan American Air Lines decided
to cut fares on the Trans Atlantic
run, so low that the British Govern
ment felt that the competition was
unfair. The British Government there
fore reduced the number of flights
which Pan American might make to
Britain. An ordinary struggle be
tween two corporations for business,
ending in a rate war is something
with which the world is quite familiar
in every such case, sooner or later,
common sense has triumphed and rat
es have been fixed at a level set by
reasonable competition between the
various companies concerned.

A rate war between transportation
enterprises owned by Governments is
something which is bound to set up
international bad feeling. Perhaps
the Canadian people have failed to
realize that this is the sort of thing
to which the Canadian Government
has committed us by its decision to
have international aviation operated

by the state.

On the whole since Canada is not
likely to make war on any country
over price levels this seems likely to
end in the Canadian taxpayer taking
the loss as he is bound to do in coun
try with wheat the sale of which
is now a Government enterprise.

What happens is that the wheat
farmers in that case or the men who op
erate air lines in the other case are
to demand that they have plenty
to do and fair pay. They are go
ing to insist that their government

pay them their share of international
costs also keeps prices down to a
level at which Canadians can com
pete in world markets.

It might be a lot simpler to go
back to the older system by which
what ever happened in domestic affairs
international business was allowed
to be operated by private corpora
tions, which could buy and sell as the
market might seem to offer an oppor
tunity, which could fix prices
where conditions seemed to set them
and which could generally speaking
do all kinds of business without pro
voking an argument between Govts.

OUR COMPLETE SHORT STORY—

BLUE IS FOR BIG BOYS, TOO

By MARION BAILEY

Copyright The Chicago Sun Syndicate

LUELLA GRAYSON turned from the gold ornate mirror, the little blue nest of straw still perched on top of her head. Luella was borrowing the hat from Caplan's Hat Shop where she worked, to please the eye of a big two-headed Irishman she had met a few weeks before, and with whom, later that Saturday she was stepping out into the country. It was nice to think of Dan and herself in the country. Dan O'Hara liked blue on Luella, and Sam Caplan liked his girls to advertise his merchandise, so Luella was killing two birds with one hat.

Luella knew very little about Dan O'Hara. Dan didn't talk about himself. He had told her, though, that he was salesman for Reddy Office Supplies, that blue was his favorite color. She had discovered for herself how really charming the Irish could be. But Fanny Vineberg had been of a different opinion.

Everybody knows an Irishman is a flatterer, and you'd have to be blind not to see he had an eye for the girls.

Fanny had been gently but firmly told to mind her own business.

Replacing that hat on its stand, Luella walked towards the front of the store. She exchanged a Japanese turban in the window for a straw-colored halo head, which she thought had more appeal, then stood for a moment gazing out. It was a lovely Spring day.

The door of the shop opened and a quiet-eyed woman entered. Luella moved to greet her. "May I help you, madam?" she said pleasantly.

The woman unfastened her shabby gray coat exposing a soft blue dress; she looked oddly out of place in the smartly appointed shop.

"I would like a hat to go with this dress," the woman said, "I thought—well, something young looking with a touch of blue. You see my husband likes blue, but I've been so busy bringing up a family I had almost forgotten." She smiled wist-

fully. "He used to say that blue matched my eyes."

Luella's throat contracted, she felt a sudden urge to please this woman.

"I think I understand," she said smiling, "my friend likes blue too. I think most men do. Maybe it reverts back to their childhood, you know pink for girls, blue for boys."

Luella left the woman and walked over to the blue display, intent for once on trying to find the right hat for the right head. As a rule Luella didn't care who wore what hat, as long as she made the sale. Sales counted in Caplan's, not emotions; the salary was high enough to curb any emotions she might be capable of, so if a customer leaned towards the grotesque, or an old lady felt she must have a beanie, she naturally met the requirements. The customer is always right.

The third hat had been tried on and put aside. The woman's expectant eyes sought Luella's grey ones eagerly as the fourth one took its place on the soft brown hair. "It's a lovely hat, but you don't think it's a little too young for me?" she said doubtfully.

She gave Luella an apologetic smile. "I'm sorry to give you so much trouble, but you see I don't buy very many hats. I can't afford to, so I would like to be quite sure."

"You're not giving me any trouble," Luella assured her. "I wish all my customers were as easy to please as you. It's nice on you," she added, "It has a certain appeal, and just enough..." Luella couldn't go on, she just couldn't do it. The hat wasn't for a quiet subdued little creature; it was meant for someone tall, and glamorous—someone very sure of herself. "Just a little moment, I think I have something you'll like better, the headsize may be a little too big, but I'll have our fitter take it in."

Luella came back with the small twist of blue straw she had intended to wear herself later on in the evening. The price tag said ten twenty-five but that didn't bother Luella; she changed that price on the tag to six ninety-five. She thought, "I'll make it up on the next two sales, and there are lots of other hats for me to choose from; I'm easy to suit."

It really was amazing what a hat could do; the effect was just about what Luella had expected; it lifted the woman right out of the dowdy class, into the sure and smart one. The woman turned to Luella, eyes shining. "If my husband could see me just once in this hat... he doesn't seem to notice how I look

anymore; husbands are like that; wait till you get married."

Luella smiled faintly, she felt a sudden warm glow remembering Dan wasn't like that, but then she wasn't married to him, and some women just leave themselves go, so how could they expect...

She said, "Believe me, he'll notice you in this hat; you'll never find any more becoming."

"But it looks so expensive, I'm sure I couldn't afford it."

"It's only six ninety-five," Luella offered.

"That's still a little more than I intended to pay, but perhaps I could manage it. It's been so long since I had anything really nice." While the woman searched in her purse, Luella looked at her watch; two more hours to go. She'd be glad when the store closed.

"I think I will take it," the customer said, "and I'll wear it."

"I would," advised Luella, "it's just the right kind of a day for a new hat."

"Could you send my old one?"

"Certainly, and the address?"

"Now let me see. Yes, I think I'll have you send it to my husband's office; I'll pick it up there later."

The telephone rang, Fanny Vineberg called, "Would you answer, Luella?"

Luella didn't want to answer the phone. A sudden weakness had taken possession of her knees. Her mouth was stretched into a forced smile as she stared into the eyes of Mrs. Daniel O'Hara.

Whether there was a glint of shrewdness in those grateful eyes, she would never know.

HEART ATTACK PROVES FATAL

Frederick Griffin, for 30 years a top-ranking newspaper writer, who suffered a heart attack at his home in Toronto, Ont., and died at the age of 56. He was overseas for five years, covering nearly every phase of Canada's fighting forces. Born near Newry, County Down, Ireland, he came to Canada at the age of 23.

Shirt Shortage

Will Have To Wait A Few Months To Replenish Stock

Thousands of Canadians whose shirt sleeves and collars are becoming frayed and worn will have to wait a few months longer before being able to replenish their stocks of shirts.

This is the opinion of officials of the Wartime Prices and Trade Board who state that while shirt production is actually up over peacetime levels, there just aren't enough shirts to go round.

The current shortage results from a combination of circumstances none of which appears to be controllable. The reasons set forth by Board officials are as follows:

1. The return to Canada of thousands of service men every month, each of whom needs three or four shirts. This demand on the part of servicemen will continue well into March when, it is expected, the bulk of Canadian servicemen will have been returned to Canada.
2. Lack of shirtings from the United States and Great Britain.
3. Lack of skilled labor. Unfortunately most Canadian shirt factories are situated in centres where labor is short. Also, Board officials say, skilled labor operators who can "turn" a shirt collar are relatively few and take many months to train.

Mussolini's Widow

Monthly Pension Has Been Granted By Italian Authorities

Italian authorities have granted a monthly pension of 15,000 lire to Donna Rachele Mussolini, widow of Benito Mussolini, following confiscation of more than 2,000,000 lire deposited in her name in the Naples branch of the Bank of Italy.

Aftonbladet of Stockholm adds that Donna Rachele and her two youngest children, Remano and Anna-Maria, are at present interned on the Island of Lichia, near Naples.

WANTED HER DOLLAR

Rent director E. B. McCutchan, Portland, Oregon, handed a tenant a cheque for \$490 which a landlord had overcharged her. She blinked in surprise for a moment—then asked one question. Did the cheque include a \$1 deposit on a key? It was McCutchan's turn. He blinked; said he would work on that, too.

The name "Chicago" comes from the Indian language and means "wild onion".

THE B.N.A. ACT

Original Is Kept In Strong Room In Parliament Buildings In London

A House of Lords receipt for 7s 6d (\$1.80) made out to the Canadian Press, bears testimony that the original British North America Act (30 Vict. No. 5) has been inspected.

This reporter can add that Canada's foundation act came through the war as fresh as paint, its printing clear and the vellum pages unwrinkled. The red ribbon binding it has faded slightly but the knot is as strong and precise as the language in the long pages.

Stout black print sets forth, among other things, that a king shall be within the jurisdiction of the federal parliament, and even stouter print on the cover declares the act is for the union of Canada, Nova Scotia and New Brunswick "and the government thereof; and for purposes connected therewith." Date of approval written in ink by a strong hand, is March 29, 1867.

For 7s 6d, the standard fee, the act was taken from a strong room in the Victoria tower of the parliament buildings, where it rests among thousands of others dating back to 1485.

Officials explained the B.N.A. Act original is part of an unbroken series in their care. They had not heard of suggestions that the original should be moved to Canada.

The bill is signed by J. G. Shaw Lefevre, clerk of the parliaments in 1867, as a sign of royal assent. There is also an inked notation in ancient French "la Reye le veult" (the Queen wishes it), the traditional declaration that a measure has come before the throne and been approved.

The B.N.A. Act is of what its custodians call the "fat" type, and therefore far easier to handle and read than the long, rolled sheaves of vellum covered with great inked letters which are the originals of acts passed prior to 1850.

But for acts of any age the safeguards are the same; even for 7s 6d they can only be inspected and must not leave the custody of the clerk of the parliaments. If the act were required in a court or a parliament a sworn copy would suffice and the original would remain secure in the tower.

Made A Fortune

Immigrant Girl Who Took To Writing Books

Jo Sinclair is 32 years old, the daughter of immigrants, and born soon after their arrival in Brooklyn. She grew up in a period when America was beginning to think that its great days were past, that all frontiers were closed, that a dull and regimented life had replaced forever the wide opportunities of its fathers. But Jo did not think so. She went to work in an attic to write a book about immigrant life as she had seen it. She had \$10 a week income and this she shared equally with her parents.

The income came, incidentally, from an anonymous rich man who was devoting his wealth to the encouragement of various unknown artists, and gambling on an eventual discovery of real talent. In the work of Jo he hit the jackpot. For the other day her first book won a \$10,000 prize offered by Harper and Brothers against the competition of 700 other books.

Her manuscript was entered at the last minute, was hurriedly read and revealed itself as a masterpiece. The girl in the Brooklyn garret has made her fortune and her reputation overnight.—Winnipeg Free Press.

Parachutes saved 30,000 lives during the war, something unknown in the first war. The men who pioneered in this and took the first jumps deserve fame.

SMILE AWHILE

"I once loved a girl who made a complete fool of me."

"What a lasting impression some girls make."

"I beg your pardon, ma'am," said the newly arrived Irish maid to the officer's wife, "but is it Colonel or Major I should be calling the Captain?"

It is possible, says a doctor to reduce one's weight by mental concentration. Wishful shrinking, in other words.

"What would you do if you were in my shoes?"

"Polish 'em!"

"How many times shall I bow?" said the novice entertainer at the battalion variety show.

"Bow," said the stage manager. "No howing for you, mate, you'll have to duck."

Rustic: Ticket to London for the missus.

Booking Clerk: First or third, sir?

Rustic: Sir! She's the third, but I ain't never told 'er about the others!

Irate Church Woman: "Why don't you arrest that nudist colony that is disgracing this neighborhood?"

Sheriff (something of a wag): "I would, but it's awful hard to get anything on them."

"On the day on which my wedding occurred—"

"You'll pardon the correction, but affairs such as marriages, receptions, dinners and things of that sort 'take place.' Only calamities 'occur.' You see the distinction."

"Yes, I see. As I was saying, the day on which my wedding occurred—"

An elevator man in a city building grew weary of repeated requests for the time. So he put up a shelf in the corner of his lift and placed a small clock on it. Now people ask: "Is your clock right?"

A Tennessee woman 80 years old, has never seen an automobile. Which may be the reason she is 80 years old.

Civilization is that state of affairs in which money is collected from women who make up their faces and tint their nails, in order to send missionaries abroad to teach savages not to do the same.

SELECTED RECIPES

SAUSAGE MEAT LOAF

- 1 egg
 - 1½ teaspoons salt
 - ¼ teaspoon pepper
 - ½ cup milk
 - 1 cup whole wheat flakes
 - 1 cup ground beef
 - ¼ pound pork sausage meat
- Beat egg slightly; add salt, pepper and milk. Crush whole wheat flakes into fine crumbs; add crumbs and meat to first mixture and mix thoroughly. Press lightly into loaf pan. Bake in moderately hot oven (400 degrees F.) about 1 hour. Yield: 8 servings.

BROWNED PAPRIKA POTATOES

- 6 medium potatoes
- 1 tablespoon melted fat or drippings
- 1 cup corn flakes
- 1 teaspoon paprika
- 1 teaspoon salt

Pare potatoes and cook in boiling water until almost tender, about 20 minutes. Drain and brush with fat. Roll corn flakes into fine crumbs and mix with paprika and salt. Roll potatoes in crumb mixture until well covered. Bake in shallow greased baking pan in moderately hot oven (425 degrees F.) about 35 minutes. Yield: 6 servings.

Misses' Nightgown

By ANNE ADAMS

Sleeping beauty! You'll love this dainty nightgown—easy to make, it makes you look so pretty! Pattern 4603 has an empire waist with tie-back belt. Scallop may be edged with lace or bias binding.

Pattern 4603 comes in sizes 12, 14, 16, 18, 20; 30, 32, 34, 36, 38, 40. Size 16 takes 3 yards 39-inch.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man.

PLACE REALLY WET

Residents of Ford Green, England, are used to wet feet. During heavy winter rains the low-lying Staffordshire village is flooded to such an extent only upstairs rooms are habitable.

The Chinese know the Christmas festival as Cheng Dan Jieh—the Holy Birth Festival. Their Christmas tree is called "Tree of Light".

Does Distress of "PERIODIC" Female Weakness

Make you feel miserable on such days?

If you suffer monthly cramps with accompanying cranky feelings—due to functional periodic disturbances—try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound is a uterine sedative—it's one of the most effective medicines you can buy to relieve this distress.

SLOAN'S LINIMENT

Gives faster relief from...

Sprains, Aches and Soreness

ITCH CHECKED in a Jiffy—or Money Back

For quick relief from itching caused by eczema, athlete's foot, scabies, pimples and other itching conditions, use your cooling, medicated, liquid D. D. D. PRESCRIPTION. Greaseless and stainless. Soothes, comforts and quickly calms intense itching. Don't suffer. Ask your druggist today for D. D. D. PRESCRIPTION.

THE NEW
Charm-Kurl
SUPREME
COLD WAVE

with Kurlium

Gives Natural-Looking
CURLS and WAVES
IN 2 to 3 HOURS
AT HOME

It's heatless—machineless—takes only 2 to 3 hours, yet your lovely, easy to manage Cold Wave Permanent will last months and months. Guaranteed to satisfy as well as any \$15.00 professional COLD WAVE or money back on request. Ideal, too, for children's soft, fine hair.

Costs only **1.35**

Contains 3 full oz. of Kurlium, 60 curlers, 60 end tissues, cotton applicator, neutralizer and complete instructions. Get a Charm-Kurl Supreme kit today.
